

## Statement on the Safety Declaration for Authorised Economic Operator (AEO)

HASCO stands for performance - even when it comes to the security of your supply chain.

As a certified *Known Consignor* (registration number DE/KC/01608-01) we can confirm the goods that are produced, stored, transported, delivered or taken over on behalf of the customer:

- are produced, stored, processed, and loaded at secure facilities and secure transfer locations,
- are protected against unauthorized access during production, storage, processing, loading and transport,
- and the staff employed for this purpose is reliable.

At present, we do not aim for certification as an *Authorized Economic Operator* (AEO). For any questions about customs, our technical staff is available to you:
